This link provided with the number is to a list of the dialogs and the names of transactions measurements. Iteration Time<sub>l</sub> is the total amount of time needed to complete all steps of the business process. Sun, 16 Dec 2018 17:08:00 GMT USENIX ATC '18 Technical Sessions | USENIX - The theory of constraints (TOC) is a management paradigm that views any manageable system as being limited in achieving more of its goals by a very small number of constraints. There is always at least one constraint, and TOC uses a focusing

process to identify the constraint and restructure the rest of the organization around it. TOC adopts the common idiom "a chain is no stronger than its ... The design captures 1 Mt-CO<sub>2</sub>/year in a continuous process using an aqueous KOH sorbent coupled to a calcium caustic recovery loop. We describe the design rationale, summarize performance of the major unit operations, and provide a capital cost breakdown developed with an independent consulting engineering ...
